

# NearMe

One minute for one lifetime.

“It comes down to us. We have the  
power to make an enormous difference.”  
- *Christopher Reeve*

**Team 6**

Richard

# Vision

- To provide a platform for **disabled and non-disabled users alike** to report about and discover wheelchair-accessible areas in local areas around them.
- Encourage the **growth of an understanding and proactive community** that is determined to make changes that will play an important impact on disabled individuals.
- **Raise awareness about spinal cord injuries** and how they affect everyday situations.

# Functionality

- Clean, simple user-interface
- Allow quick reporting about local restaurants, attractions and hotels
- Search geographic areas around the user with GPS-location
- Earn points to make donations to the Christopher & Dana Reeve Foundation

# Specifications

- **Two distinct user groups**, one intuitive interface:
  - Disabled individuals
  - Supporters of the disabled community
- Mockups/wireframes - iPhone application
  - **Web/desktop app would have little practical use**
- Final prototype
  - C# Windows Form and predefined data sets
- IDE
  - Visual Studio 2013

# Features

---

# Initial Release

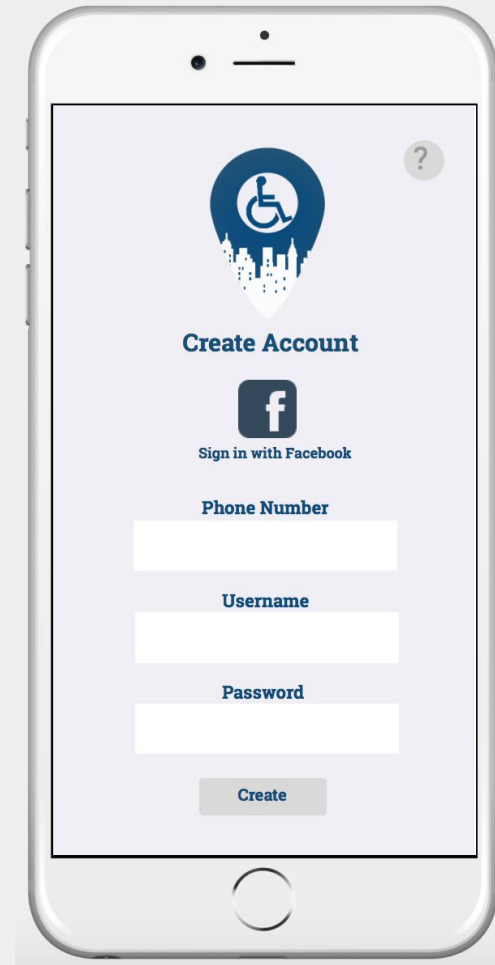

- **Search locations** around user's vicinity
- **Rate a location** based on how wheelchair accessible it is and share with other users
- **Upload photos** of the location and its accessibility features
- **Earn points** towards donations

# Future Releases

- **Request “pickup” services** based on your GPS location
- Multi-location **vacation planning**
- **Challenges** based on point earning
- Incorporate **additional disabilities**

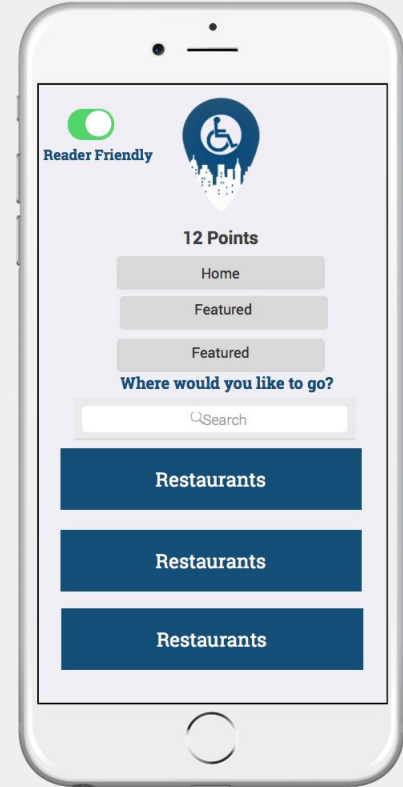

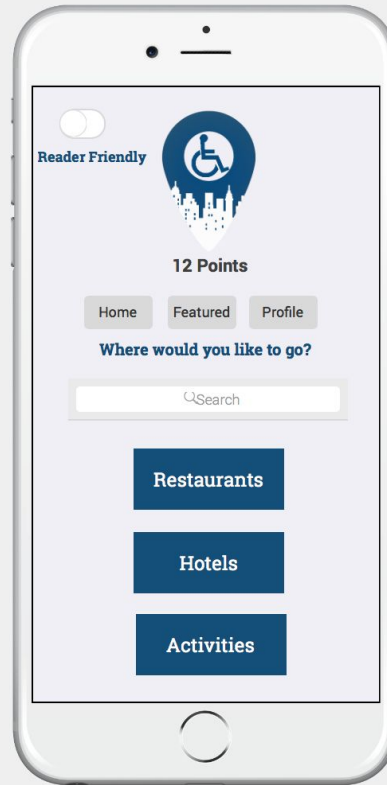

# Login

- Users can choose to login either with Facebook, or they can choose to create an account.

# Activities

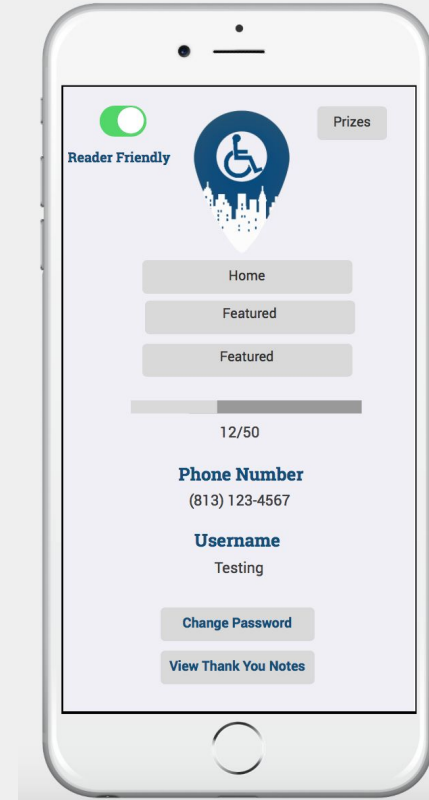

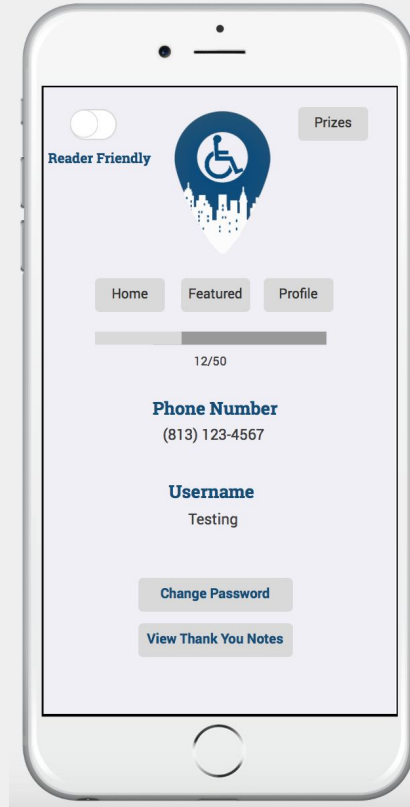

- Once logged in, the user can choose what amenities that they are searching for, click on it, and then locations around them will pop up organized based upon rating.

# Dashboard

- At the dashboard, users can keep track of their thank you's and points, as well as their posted reviews.

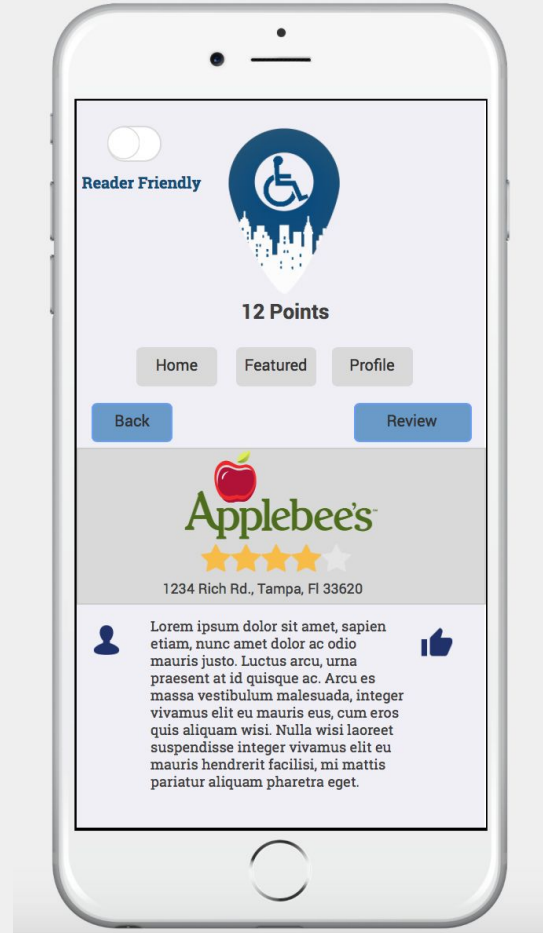

# Write a Review

- To write a review, simply hit the post button at the top, and write your review.

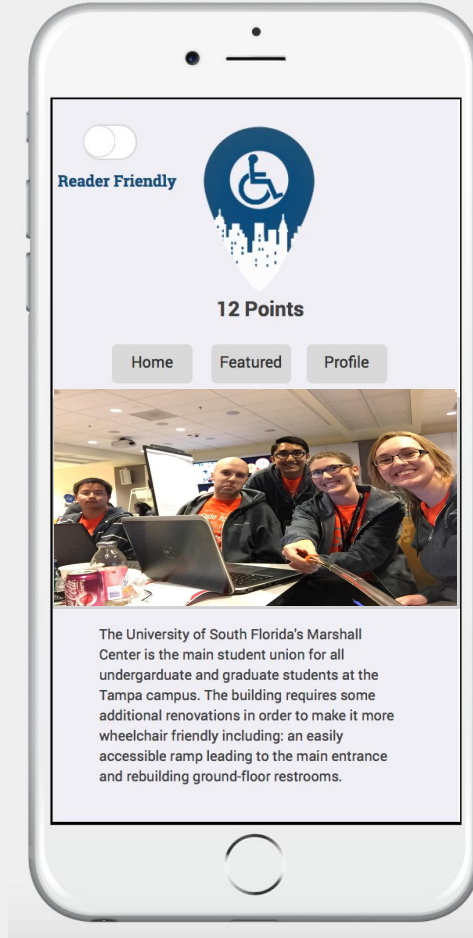

# Send a Thank You

- To send a thank you to the original poster, the user can simply go to the post, and hit the thank you button, and a message will be sent to the original poster.

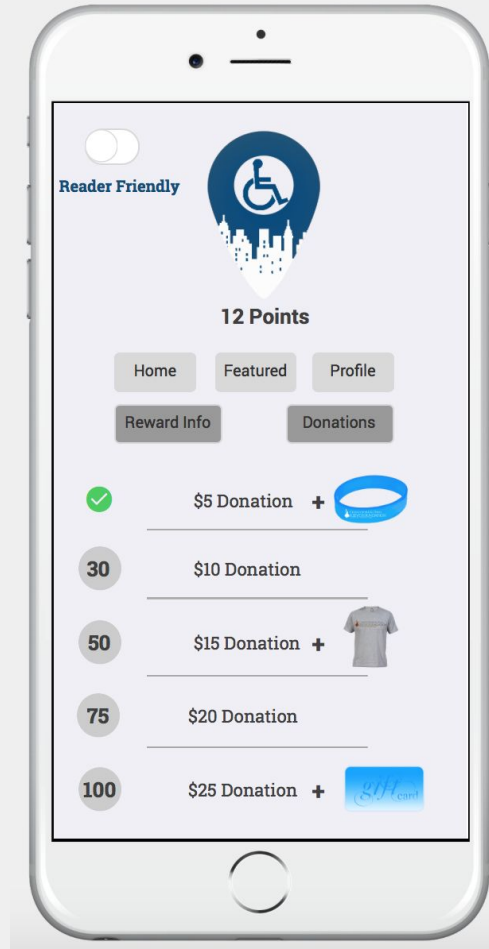

# Featured Projects

- Each week, a new featured project will be advertised on the app. The project describes ongoing or future renovations that will be made in order to make locations more wheelchair accessible.

# Incentives

- For every level of points reached, a portion of the total points is donated to the Christopher & Dana Reeve Foundation.

**\$5 Donation**
